

The real face of Jewish Eldercare.

When Solika developed Alzheimer's, she also lost her independence. Unable to remain at home, Solika became part of the Jewish Eldercare Centre family, where she receives the compassionate care that she deserves.

Along with personal attention from highly-skilled physicians and nursing staff, Solika has access to many programs and services: Oneg Shabbat celebrations and daily recreational activities; holiday services and spiritual guidance from rabbis on staff; physiotherapy and occupational therapy; social worker assistance; dental services and much more.

Our 320 frail elderly residents depend on the generosity of the community to ensure that the finest care and quality of life will always be available. Please support the Jewish Eldercare Foundation by calling Danny Dahan at 514-738-4500, ext. 2319.
